

The Intel® Processor Diagnostic Tool Release Notes

LEGAL INFORMATION

INFORMATION IN THIS DOCUMENT IS PROVIDED IN CONNECTION WITH INTEL® PRODUCTS. NO LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL OR OTHERWISE, TO ANY INTELLECTUAL PROPERTY RIGHTS IS GRANTED BY THIS DOCUMENT. EXCEPT AS PROVIDED IN INTEL'S TERMS AND CONDITIONS OF SALE FOR SUCH PRODUCTS, INTEL ASSUMES NO LIABILITY WHATSOEVER, AND INTEL DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY, RELATING TO SALE AND/OR USE OF INTEL PRODUCTS INCLUDING LIABILITY OR WARRANTIES RELATING TO FITNESS FOR A PARTICULAR PURPOSE, MERCHANTABILITY, OR INFRINGEMENT OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT.

UNLESS OTHERWISE AGREED IN WRITING BY INTEL, THE INTEL PRODUCTS ARE NOT DESIGNED NOR INTENDED FOR ANY APPLICATION IN WHICH THE FAILURE OF THE INTEL PRODUCT COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR.

Intel may make changes to specifications and product descriptions at any time, without notice. Designers must not rely on the absence or characteristics of any features or instructions marked "reserved" or "undefined." Intel reserves these for future definition and shall have no responsibility whatsoever for conflicts or incompatibilities arising from future changes to them. The information here is subject to change without notice. Do not finalize a design with this information.

The products described in this document may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Contact your local Intel sales office or your distributor to obtain the latest specifications and before placing your product order.

This document contains information on products in the design phase of development.

All products, platforms, dates, and figures specified are preliminary based on current expectations, and are subject to change without notice. All dates specified are target dates, are provided for planning purposes only and are subject to change.

This document contains information on products in the design phase of development. Do not finalize a design with this information. Revised information will be published when the product is available. Verify with your local sales office that you have the latest datasheet before finalizing a design.

Code names featured are used internally within Intel to identify products that are in development and not yet publicly announced for release. Customers, licensees and other third parties are not authorized by Intel to use code names in advertising, promotion or marketing of any product or services and any such use of Intel's internal code names is at the sole risk of the user.

Intel and the Intel logo are trademarks of Intel Corporation in the U.S. and other countries.

1 Purpose of Intel® Processor Diagnostic Tool

The purpose of the Intel® Processor Diagnostic Tool is to verify the functionality of an Intel® microprocessor. The diagnostic checks for brand identification, verifies the processor operating frequency, tests specific processor features and performs a stress test on the processor.

The diagnostic can be configured to execute in one of two modes, presence test mode or verification mode. Additionally, it can be configured to enable (run) or disable (skip) individual default configurations are used for this mode of operation.

2 IPDT Test System Requirements

Multiprocessor Systems

The Intel® Processor Diagnostic Tool is compatible with multiprocessor systems.

Motherboard & Processor

It is essential that the motherboard you use to test your processor is fully compatible with your Intel® processor. Consult your motherboard manufacturer's support to ensure the motherboard supports your processor. If you are using an Intel® Motherboard please use this utility [Intel® Processors and Boards Compatibility Tool](#)

Motherboard BIOS

It is essential that the motherboards BIOS is at the minimum BIOS revision specified to support your Intel® processor. Consult your motherboard manufacturer's support to ensure the BIOS revision is at the correct revision.

Motherboard Architecture

IPDT is only compatible with motherboards built using Intel® Architecture.

Over-Clocking

Over-Clocking should be disabled while running Intel® Processor Diagnostic Tool.

Power Management

Some power management features (e.g. [Intel SpeedStep® technology](#)) throttle or reduce the operating frequency of components within the system. These types of power management features may result in very low tested frequency results. This does not mean that the processor is operating at degraded performance levels. It means that the enabled power management feature is optimizing the efficiency of the processor, either to save power or reduce heat within the system.

We recommend you disable any power management features such as Intel SpeedStep® technology and configure your system to its optimal power management settings, when running

Intel® Processor Diagnostic Tool. For instructions on how to disable these power management features, please contact your system manufacturer.

In addition, Intel® Turbo Boost Technology 2.0 automatically allows processor cores to run faster than the rated operating frequency if they're operating below power, current, and temperature specification limits. Availability and frequency upside of Intel Turbo Boost Technology 2.0 state depends upon a number of factors including, but not limited to the following: type of workload, number of active cores, estimated current consumption, estimated power consumption, and processor temperature.

Operating Systems

The Windows® version of the Intel® Processor Diagnostic Tool is compatible with the following operating systems (Please download and install the relevant IPDT installer for your Operating System – 32Bit or 64Bit):

- Windows 10
- Windows 8.1
- Windows 8
- Windows 7
- Windows Server 2012
- Windows Server 2008 R2 (not supported on Server Core Role)
- Windows Server 2008 R2 SP1
- Linux Fedora 20 32 & 64 Bit (Custom Fedora LiveUSB provided by Intel)

3 Software Required

The following software is required to run IPDT in the Windows® environment and must be installed prior to installing IPDT

3.1 IPDT 32 Bit Software Requirements

- Windows® Installer 3.1 Redistributable (v2).
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=25>
- Microsoft® .NET Framework Version 4.5 Redistributable Package (x86_x64).
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=30653>
- Microsoft® Visual C++ 2010 SP1 (x86) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<http://www.microsoft.com/download/en/details.aspx?id=8328>
- Intel(R) OpenCL Runtime x86
Click here to download or copy the following URL into the browser
http://registrationcenter-download.intel.com/akdlm/irc_nas/9022/opencl_runtime_16.1.1_x86_setup.msi
- Microsoft® Visual C++ 2015 (x86) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=48145>
- *If your Intel Processor supports AVX, your Operating System will also need to support AVX in order to run IPDT AVX test.
Operating System minimum requirements for running IPDT AVX test:
Linux: supported since kernel version 2.6.30, released on June 9, 2009
Microsoft Windows: supported in Windows 7 SP1 and Windows Server 2008 R2 SP1. Hotfix 2517374 available for non-SP1 version of Windows Server 2008 R2.*

3.2 IPDT 64 Bit Software Requirements

- Windows® Installer 3.1 Redistributable (v2).
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=25>
- Microsoft® .NET Framework Version 4.5 Redistributable Package (x86_x64).
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=30653>
- Intel(R) OpenCL Runtime x64
Click here to download or copy the following URL into the browser
http://registrationcenter-download.intel.com/akdlm/irc_nas/9022/opencl_runtime_16.1.1_x64_setup.msi
- Microsoft® Visual C++ 2010 SP1 (x86) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<http://www.microsoft.com/download/en/details.aspx?id=8328>
- Microsoft® Visual C++ 2010 SP1 (x64) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<http://www.microsoft.com/download/en/details.aspx?id=13523>
- Microsoft® Visual C++ 2015 (x86) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=48145>
- Microsoft® Visual C++ 2015 (x64) Runtime Libraries.
Click [here](#) to download or copy the following URL into the browser
<https://www.microsoft.com/en-us/download/details.aspx?id=48145>

The IPDT Installer program will check for the presence of the above prerequisites on your system. If your system is connected to the internet the prerequisites will be downloaded and installed on your system.

- *If your Intel Processor supports AVX, your Operating System will also need to support AVX in order to run IPDT AVX test.*
Operating System minimum requirements for running IPDT AVX test:
Linux: supported since kernel version 2.6.30, released on June 9, 2009
Microsoft Windows: supported in Window 7 SP1 and Windows Server 2008 R2 SP1. Hotfix 2517374 available for non-SP1 version of Windows Server 2008 R2.

5 Release Notes

Full Version	IPDT Version
4.0.0.29.W.MP	4.0.0.29

Date	Description
14-Dec-16	<p>New Release which includes</p> <ul style="list-style-type: none">• Support for Intel® Core™, Intel® Xeon®, and Intel® Atom™ Processors• Enhanced CPU Frequency detection• Enhanced Prime Number and Floating Point test• Enhanced CPU Load test• Added FMA test• All tests are now modular and standalone

6 Bug Fixes

Date	Description
	No bug fixes required

7 Known Issues

Description	Workaround
2D Test may display a white screen during 2D test if using latest Intel HD Graphics Driver	Set 2D Test to Disable
