

Intel® IPF Providers for GPU Telemetry and Controls – Release Notes

Intel® Innovation Platform Framework Providers for GPU Telemetry and Controls (Intel® IPF Providers for GPU Telemetry and controls) help to manage Intel integrated graphics characteristics such as operating frequency and get telemetry information such as GPU utilization.

Release Details

- Driver: Intel® Innovation Platform Framework Providers for GPU Telemetry and Controls
- Driver Version: 16.1.0.257
- Date: November 4, 2025

Supported Platforms

- Intel® Core™ Ultra 200S Plus Series Processors
- Intel® Core™ Ultra Processors (Series 2)
- Intel® Core™ Ultra Series 3 Processors

Supported Operating System

- Windows 11 23H2
- Windows 11 24H2
- Windows 11 25H2

System / Driver Requirements

- Intel® Innovation Platform Framework (Minimum version 2.2.10200.11)

New / Changes / Issues Fixed

- None

Known Behaviors / Limitations / Issues

- None

Notes & Disclaimers

Windows Update or download from OEM service site are the recommended methods to get the OEM tested driver, and installing generic version from Intel® Platform Performance Package from Intel portal means user assumes the responsibility as the generic version may be different from OEM's recommended release.
